Join us for Insurance Untangled Live: Mastering Practice Success

Every dental practice has its challenges—some struggle with business decisions, others with insurance, and many with finding the right way to attract patients. This event is designed to shine a light on the common mistakes that quietly drain practices of time, money, and growth opportunities.

The session ends with a live Q&A where you can bring up the issues you face day to day and get direct, honest answers.

It's a chance to learn from experts, gain practical tools for your practice, and earn 3 CE credits at the same time.

We'd love to see you there!
